[1] Oil change amount
[2] Is made up of combustion engine drive (stated nominal value) and electric drive (up to stated nominal value)

Fuel consumption, CO_2 emission figures and power consumption as well as electric range were measured using the methods required according to Regulation VO (EC) 715/2007 as amended. Where a range is shown, the WLTP figures take into account the impact of any optional extras.

Further information on the WLTP and NEDC measurement procedures is also available at www.bmw.de/wltp can be found.
